Experience:

① **Institution Name**: Chittagong Ideal High School
Position: Computer Operator
Location: Chittagong
Job duration: March'2018 – July'2022
Job responsibilities: Compose the questions, write office forwardings, notice writing, profile creation on the website, etc.

Projects:

① **Project name: Photography Camp School. Live link, Github Repository link: client & server**
Project Type: Skill-based short-duration program school website built on React.js.
- We developed a responsive summer photography camp school website using React.js and TailwindCSS.
- The backend used in this project is Express.js and MongoDB.
- We have implemented user authentication and authorization using JSON Web Tokens (JWT).
- In this project, I have added an admin dashboard, Instructor dashboard, and user dashboard and implemented payment methods.

② **Project name: Toy-Racer BD. Live link, Github Repository link: client & server**
Project Type: A website makes for child sports toy marketplace.
- They created an exciting "Toy Racer BD" web application using React.js and TailwindCSS. Users can add a toy to this application.
- React npm packages are used in this project.
- Express.js server and MongoDB database are used in the backend.

③ **Project name: Khadok Chottola. Live link, Github Repository link: client & server**
Project Type: Famous chefs and their prepared dishes.
- Bangladesh's famous chefs have served their favorite dishes.
- I created a responsive website with React.js and Tailwind CSS, utilizing NPM packages for enhanced functionality.
- We developed a robust back-end using Express.js and MongoDB, implementing RESTful APIs and ensuring data security.
